Summary

Computer Science graduate with hands-on experience in SQL, Python, and Power BI. Microsoft Certified: Power BI Data Analyst Associate (PL-300). Built a complete SQL Data Warehouse using Medallion Architecture (Bronze → Silver → Gold), ETL pipelines, and Star Schema. Internship experience in AI/OCR research and Django development. Seeking an entry-level Data Analyst / Data Engineer role.

Skills

Languages: Python, Java, C, C++

Data Tools & Libraries: Excel, Pandas, NumPy, Matplotlib, Power BI, BeautifulSoup

Databases & Data Engineering: Microsoft SQL Server, MySQL, PostgreSQL

Frameworks / Others: Git/GitHub, Django, Flask

Soft / Additional: Data Visualization, Web Scraping, ETL basics

Experience

Java Developer & AI Tool Researcher (Intern) (T7 Solutions)

Apr 2025 – July 2025

- Researched LLM-based OCR solutions and selected open-source PaddleOCR for production use based on accuracy, cost, and self-hosting capability.
- Tested PaddleOCR on printed documents, scanned PDFs, and images; documented comparative results against commercial LLM solutions.

Python Developer (Intern) (DataSos Technologies)

Feb 2024 – Apr 2024

- Developed a Mutual Fund Analysis web app using Django + BeautifulSoup for real-time data collection via web scraping.
- Built interactive visualizations (Matplotlib / Chart.js) to help users compare mutual fund performance.

Projects

SQL Data Warehouse

Github

- Designed and built a complete data warehouse using Medallion Architecture (Bronze → Silver → Gold layers).
- Built T-SQL ETL pipelines to clean, standardize, and transform data (nulls, duplicates, type mismatches) from CRM/ERP sources.
- Designed a Star Schema in the Gold layer with fact & dimension tables, surrogate keys, and referential integrity.
- Validated data quality at each layer with SQL checks (row counts, duplicates, nulls) and documented architecture using Draw.io.

Telecom Customer Churn Analysis | Power BI + Medallion Architecture

Github

- Designed end-to-end data pipeline using Medallion Architecture (Bronze → Silver → Gold) on telecom customer dataset.
- Cleaned, standardized, and transformed raw data in Silver layer; created derived features and analytical tables in Gold layer.
- Developed a 5-page interactive Power BI dashboard ("TrueConnect") analyzing customer demographics, plan performance, service adoption, and usage/billing trends to surface churn-risk indicators.

Certifications

- **Microsoft Certified: Power BI Data Analyst Associate (PL-300)** – View Credential
- **SQL (HackerRank)** – View Certificate
- **Python (HackerRank)** – View Certificate

Education

Birla Vishvakarma Mahavidhyalaya

2021 – 2024

Bachelor of Technology (B.Tech) in Computer Science, CGPA: 6.40/10

C.U Shah Polytechnic, Surendranagar

2018 – 2021

Diploma in Computer Engineering, CGPA: 9.59/10
